

THE PARASITIC EMISSION

Its that time of year again. Dues are due, and plans are in the works for our Christmas get-together. Once again we are going to congregate at the home of Harvey , N3RTK, and Janet, N3ZFX, Haag. On the menu are roasted pork loin and scalloped potatoes. The side dishes and other goodies will be provided by those attending. Please call Janet at 765-2235 just to make sure we don't wind up with 6 dishes of green beans and slivered almonds! The deadline for reservations is December 15th. By the way, The date of the dinner is Saturday, December 20th. Plan to arrive around 6:00 PM for a half hour of socializing. We hope to see a big turnout.

This year has been a good one for the QCARC. On May 10th 146.865 was replaced by 147.315. This was more than a frequency change. It included a new Kenwood TRK-750 repeater, an Arcom 210 controller, a 150 watt amplifier, 7/8 inch hardline and a super stationmaster antenna.

We have become more active in ARES and RACES, having participated in an emergency drill with Clearfield County Emergency Management, and an SET with ARRL. We participated in Field Day, and had our second successful swap meet. This one was held in conjunction with Airport Awareness Day at the Clearfield-Lawrence Airport.

Not every event was on the plus side. The ATA decided to remove their equipment from our tower site producing a large hole in our yearly income. We lost our president, Justin, N3OG, due to a job transfer to Scotsdale, Arizona.
